EDUCATION

BS Software Engineering
Riphah International University
2023 – 2025 | CGPA:
3.6/4.0

TECH STACK

- React.js / Next.js
- React Native
- Node.js / Express
- Python
- MongoDB / MySQL
- Firebase / PostgreSQL
- REST APIs / GraphQL
- Git · Docker · AWS

AI / ML

- Machine Learning
- Random Forest
- Scikit-learn / Pandas
- Streamlit · NumPy

TOOLS

- Figma · Postman
- Docker · AWS
- Jest · VS Code

LANGUAGES

- English — Professional
- Urdu — Native

PROFILE

Software Engineer with 5+ years in Full Stack Development & AI/ML integration. Delivered 40+ production-ready apps with 100% client satisfaction across healthcare, fintech, and e-commerce.

EXPERIENCE

- Full Stack Developer** · *Freelance* 2020 – Present
- Shipped 40+ full-stack web & mobile apps; integrated AI/ML models into production systems.
 - Stack: React, Next.js, React Native, Node.js, Python, Firebase, MongoDB, MySQL, AWS.
 - End-to-end ownership: system design → development → testing → deployment → client handoff.

KEY PROJECTS (40+ DELIVERED)

Student Performance Prediction

Python · Random Forest
AI system with 85.42% accuracy predicting student academic outcomes.

AI-Powered Billing System

React · Firebase
Smart invoicing with payment tracking and ML-based forecasting.

Hospital Management System

React · Firebase
Full HMS with patient records, appointments, and billing.

Real-Time Chat App

Socket.io · React
Messaging app with group chats, file sharing, and notifications.

AI Document Detection System

OCR · NLP · Tesseract
Automated document classification and text extraction pipeline.

Smart Goal Tracking App

React Native · MongoDB
Cross-platform app for goal setting and progress analytics.

E-Commerce Platform

MERN Stack
Online store with product management and payment integration.

Task Management System

React · Node.js
Project tool with Kanban boards and team collaboration.

SOFT SKILLS

Project Management · Team Collaboration · Problem Solving · Leadership · Critical Thinking · Communication
