- AI & ML Fundamentals — Simplilearn (2024)
- Responsive Web Design — freeCodeCamp (2023)
- Problem Solving — HackerRank (2024)

PROFILE

Passionate Software Engineer & Full Stack Developer with 2+ years of experience designing and deploying scalable web and mobile applications. Skilled in modern frameworks, database architecture, and AI-powered solutions with a proven track record of delivering user-focused software.

WORK EXPERIENCE

Software Engineer & Full Stack Developer · [OriginITSoft software House](#)

June 2024 – Present · Remote

- › Design and engineer scalable web applications leveraging modern frontend and backend ecosystems.
- › Consult with international clients to translate business requirements into production-ready software.

Backend Developer · [Riphah International University](#)

7 Months · Contract

- › Developed secure university web apps and integrated mission-critical backend microservices.

Frontend Developer Intern · [Revive Medical Technologies](#)

- › Contributed to enterprise healthcare web apps; assisted in feature deployment and debugging.

Frontend Developer · [iLab Solution, Sahiwal](#) 6 Months

- › Developed responsive web apps using modern frontend technologies; integrated APIs across projects.

PROJECTS · 20+ SOLUTIONS DELIVERED

- › **Student Performance Prediction** [[Python](#), [Random Forest](#)] AI model achieving 85.42% accuracy in forecasting academic outcomes.
- › **AI-Powered Billing System** [[React](#), [Firebase](#)] Smart invoicing with automated billing, payment tracking, and revenue analytics.
- › **Hospital Management System** [[React](#), [Firebase](#)] Comprehensive HMS for patient records, appointments, staff, and billing.
- › **E-Commerce Platform** [[html](#),[css](#),[js](#)] Full-featured store with JWT auth, cart, order processing, and payment gateway.
- › **Smart Goal Tracking App** [[React Native](#), [MongoDB](#)] Cross-platform app for goal tracking, progress monitoring, and analytics.
- › **AI Document Detection** [[OCR](#), [NLP](#), [Tesseract](#)] Intelligent system extracting and classifying text from scanned documents.
- › **eVitals Healthcare App** [[React Native](#), [Firebase](#)] Cross-platform app for appointment booking, patient management, and health monitoring.
- › **TrynexTech Business Website** [[Next.js](#), [React.js](#)] Responsive corporate site with modern UI/UX and SEO — [trynextech.com](#)
- › **Tailor Management Software** [[python](#),[mysql](#)] Desktop based Managemnet software for customer records , measurement,order tracking,and reporting
